EUROPEAN WORKSHOPS IN CLINICAL FORENSIC MEDICINE: DIAGNOSIS AND ASSESSMENT OF CHILD AND ADULT SEXUAL ABUSE AND OF JUVENILE PORNOGRAPHY

First Edition

Milano 25-26th May 2012

The present workshop aims at providing specialized and practical training in the physical evaluation of sexual abuse of children and adults by focusing on specific procedures of the clinical examination and on the more crucial aspects of interpretation and medico legal evaluation of signs and lesions. Lectures given by international experts in the field such as Joyce Adams and Deborah Rogers will be intervalled by practicals on models and on real case material. The issue of juvenile pornography and the difficulties and pitfalls in assessing age from photos or videos will also be presented. The workshop is meant for all professionals of the clinical, forensic and medico legal fields who wish to gain up to date information and practical experience in this delicate field, and particularly for those who wish to work as court experts. The ultimate aim is also to bring together experts in this field in order to begin a process of harmonization of clinical and medico-legal procedures for sexual abuse at the international level.

Organizers

Prof. Cristina Cattaneo – DMU, Sezione di Medicina Legale, Università degli Studi di Milano, Italy (cristina.cattaneo@unimi.it)

Prof. Eric Baccino – CHU, Université de Montpellier, France (e-baccino@chu-montpellier.fr)

The workshop will be held at the Sezione di Medicina Legale, Dipartimento di Morfologia Umana e Scienze Biomediche, Università degli Studi di Milano, via Mangiagalli 37, Milano

Under the patronage of

IALM – International Academy of Legal Medicine
